Art and Technology Intersect

NJIT programs in theater and digital design are preparing students for careers that combine creativity and technical talent.

PAGE 16

Storms, Animals and Smarter Buildings

Three new members of the NJIT faculty are engaged in research to expand our understanding of natural phenomena and improve the quality of life.

He's Moving the Edge

The installation of Joel Stuart Bloom as NJIT's eighth president was a day for academic pageantry.

DEPARTMENTS

- 2 **ABSTRACTS**
NJIT news in brief
- 7 **POINT BY POINT**
Athletics update
- 8 **GIVING**
NJIT development news
- 25 **ALUMNI CIRCUIT**
Class notes, alumni calendar, and more
- 33 **AT THE EDGE**
Leading-edge achievements by faculty, staff, students, alumni and friends of NJIT

In learning the fundamentals of digital imagery, School of Art+Design students are challenged to digitally model and "deconstruct" familiar objects, and visually communicate states that can range from symmetrical balance to chaos – a challenge reflected in the images created by students Arielle Lesnoy on the cover and Elvin Padilla above.
